PREFACE.

The very complete Collection of the Copper Coins of the World, enumerated in this Catalogue, was formed by a member of the New York Bar, whose name is withheld at his own request, but who has been known for many years as a very discriminating and extremely well-posted Collector in this department of Numismatics.

Great care having been taken by him in the selection of the material, the condition of nearly every specimen will be found to be far superior to the usual average of the Copper series. Only well struck and finely preserved coins, of good color, were selected, — such, in fact, as every Collector delights to add to his Cabinet.

The classification adopted is that followed in the "Copper Coins, 5th Edition," of the Scott Stamp and Coin Co., an excellent work in its way, which will be found to supply the descriptions necessarily omitted from this Catalogue. The work may also serve as an approximate index of the valuations of Copper Coins, i. e., after making the usual allowance — say 50% — between dealers' and auction-room prices.

All bids should be sent so as to reach me at least 24 hours before sale, and be expressed at so much per piece, leaving out all fractions of cents, which cannot be considered by the auctioneer at the sale. Unreserved and absolute sales, like the present one, offer Collectors the best opportunities of purchasing desirable specimens at their own prices, and all are respectfully invited to avail themselves of this opportunity.

ED. FROSSARD,
108 East Fourteenth Street, New York.

CATALOGUE.

COLLECTION OF COPPER COINS.

Unless otherwise stated, the coins of this collection are copper. While many die-varieties will be found, impressions from same dies were carefully excluded, hence the collection will be found quite free from duplicates. The arrangement followed is that of SCOTT'S COPPER COINS; a few references to this excellent classification will be found. All specimens were carefully selected, and the average condition is all that a collector in this field can desire.

CANADA.
